Computer Science undergraduate with hands-on experience building full-stack web applications. Passionate about software engineering, learning modern web technologies, and developing scalable, real-world solutions.

## SKILLS

---

- **Language:** Python, java, JavaScript
- **Version Control System:** Git, Git-hub
- **Frontend:** Html, CSS, React, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Concepts:** REST APIs, MVC Architecture, Authentication (JWT), CRUD Operations

## PROJECTS

---

### EXPENSE TRACKER – FULL STACK WEB APPLICATION

**Technologies:** React, Node.js, Express, JWT react

- Developed A full stack expense tracking web application using React and Node.js.
- Implemented user Authentication and Authorization using JSON WEB TOKENS(JWT).
- Created Restful APIs to add, update and delete expense records.
- Managed Application Data on the client side and handled requests through backend APIs.

### API RATE LIMITING GATEWAY

**Technologies:** Node.js, Express.js

- Built A simple API Rate Limiting Gateway using Node.js and Express.
- Implemented request limits to control the number of API calls per user.
- Returned appropriate HTTP status codes when the request limit was exceeded.
- Improved API stability by preventing excessive requests.

### FOCUSFLOW- PRODUCTIVITY DASHBOARD WEB APP

**Technologies:** HTML, CSS, JavaScript, FullCalendar.js

- Built a visually appealing productivity dashboard integrating a To-Do List, Calendar, and Pomodoro Timer
- Integrated FullCalendar.js to schedule events with title, description, and category support
- Designed a dark-themed responsive UI using HTML, CSS, and JavaScript for seamless task and time management

## CERTIFICATES

---

- **Full Stack Web Development (GeeksforGeeks):** Earned a comprehensive certification mastering modern frontend and backend web technologies.
- **Smart India Hackathon (SIH) :** Led a team to architect a "Student Dropout Record System" web app for the **Government of Gujarat** to track at-risk student data.
- **Tata GenAI Data Analytics Job Simulation (Forage):** Leveraged Generative AI tools to clean complex datasets and visualize actionable business insights in a corporate simulation.
- Successfully completed Deloitte Technology Job Simulation (Forage).

## EDUCATION

---

|                                                            |           |
|------------------------------------------------------------|-----------|
| Uttaranchal University — Bachelor of Technology (7.5 CGPA) | 2023–2027 |
| Senior Secondary (Class XII) — 60%                         | 2020–2022 |
| Secondary (Class X) — 71%                                  | 2019–2020 |
